PRODUCT OVERVIEW

Mono Competition SPL Amplifier

GZCA 3000X.M1 from GROUND ZEROs COMPETITION series is a compact and powerful mono Class-D amplifier designed for the highest demands in car audio applications. With a peak power output of up to 4500 watts and 1-ohm stability, it is ideally suited for SPL-oriented setups. Its highly efficient Class-D technology ensures maximum performance with optimized energy usage, while features such as adjustable low- and high-pass filters, bass boost, and comprehensive protection circuits provide outstanding flexibility and operational reliability. As a new development, the amplifier now also offers an extended fullrange frequency response, opening up entirely new application possibilities. This makes the GZCA 3000X.M1 not only the first choice for powerful subwoofer setups, but also a versatile solution for a wide range of fullrange applications.

KEY FEATURES

- High-power mono class D amplifier
- High-efficient class D technology
- Full range audio reproduction
- 1 ohm stable
- Adjustable low pass, high pass filter
- Variable bass boost function
- RCA input
- Adjustable input sensitivity
- Turn-on delay
- Thermal, Short, Overload protection
- Fit to start-stop vehicles
- Compatible with many e-cars (see the manual)
- Bass level remote control included

CONTENTS

- 1 piece GZCA 3000X.M1
- 1 piece GZREM 1-A
- Mounting hardware

FACTS

Model	GZCA 3000X.M1
Amplifier type	Class D
Output power (@ 100 Hz)	
@4Ω RMS ≤ 1% THD+N	1x 1000 W
@2Ω RMS ≤ 1% THD+N	1x 1825 W
@1Ω RMS ≤ 1% THD+N	1x 3180 W
@1Ω max. ≤ 10% THD+N	1x 4500 W
Ratings based on the CEA-2006-A standard	
Dimensions (L x W x H)	265 x 150 x 64 mm /
	10.43" x 5.91" x 2.52"
